

CODE: **RAKU2-ZP** v1.0/l
 NAME: **Set of wires for battery enclosure - RAKU2.**

APPLICATION

The RAKU2-ZP cable set is designed for connecting 2÷4 7Ah/18Ah /12V (SLA) batteries placed in the RAKU2 enclosure. To facilitate making connections, some of the wires have flat connectors with a branch. The set includes an insulating hose to secure the connections made.

TECHNICAL PARAMETERS

Cable length	2x 40cm, 4x 20cm
The diameter of the wires	2,5mm ²
Maximum voltage	60V DC max.
Maximum current	20A max.
Connectors	battery inputs: 6,3F-2,5
Net/gross weight	0,07 / 0,10[kg]
Storage temperature	-20°C...+60°C
Notes	the set includes an insulating hose
Warranty	2 years from the production date
