

PRODUCT LEAFLET

Addressable base station for wireless units 4620

FEATURES

- Ideal in buildings where it is difficult to hide cables and where extensions are required.
- High flexibility: Up to 4 base stations on each COM loop and up to 16 wireless units on each base station.
- The base station has a built-in short circuit isolator that requires no separate COM loop address.
- The base station has two built-in antennas.
- Minimum 170 m transmission range (open air).
